

# WINDWARD COMMUNITY SERVICES ASSOCIATION 2017 BOARD OF DIRECTORS ELECTION CANDIDATE BIOGRAPHIES

**There are four (4) open Board positions this year. Please vote for up to four (4) candidates.**

## Bill Delmont

Bill Delmont has yet to serve on the Windward Board, but recently became a Resident Advisor to the Board. Bill feels strongly that the board's constituents are the homeowners, and that everything possible should be done to create an atmosphere where all homeowners feel they are represented by the board and treated fairly with the upmost courtesy and respect. Bill feels it is time to create a forward strategy that will ensure each homeowners' community experience and property values are always at the forefront of any board action.

After a 31-year career, Bill retired from UPS in 1997 as a senior sales executive. He led the restructuring of the entire UPS field organization, managed the UPS Customer Advisory Council, initiated strategic alliances, and managed UPS's sponsorship for the 1996 Summer Olympics. Bill provides executive council to business leaders, served as President of the board of the Golf Club of Georgia, Chairman of the board of Accelegrow Technologies, board advisor to Accudraft Inc. and E- Freightsolutions, and is currently CEO of Accelegrow Technologies. He has been an active supporter of the United Way and the Muscular Dystrophy Association raising 2 million dollars. Bill studied economics at Temple University, logistics at Michigan and attended Columbia's executive business school. He served in the US Army's 508th Airborne Battalion, enjoys golf, photography, travel, his model trains layout, cooking and fine wines. And best of all, the times on beautiful Lake Windward. Bill and his lovely wife Vicky, of 43 years, have two daughters and one grandson.

## Roger Faulkner

My name is Roger Faulkner and I would be honored to serve the residents of Windward as a member of the Board of WCSA. My wife and I have lived in Windward since 2011 and live in the Creek Ridge subdivision. Currently I serve our Windward Community as a Resident Advisor to the Board of Directors, as a member of the newly formed Construction Committee, and also as Commodore of the Lake Windward Yacht Club.

Before moving to Georgia, I was formerly the HOA President of a planned community of over 1600 homes in central Ohio. In addition, I was a City Councilman where I served as Vice President of Council and Chairman of the Public Service Committee in which I advised council of all ordinances involving zoning requests, capital improvement expenditures, and other necessary approvals. I am a licensed

professional engineer and currently serve as the Executive Director of the Southeast Cement Promotion Association which promotes cement and concrete construction solutions for highways and structures in the Southeast United States. I would like to utilize my background and experience to help ensure Windward is the most desired place to live in Alpharetta. Thank you for your consideration.

### Robert Ivy

My wife, Michele, and I were transferred to Alpharetta in June 2015, by her employer, UPS. Following our survey of other communities, we selected Windward as our community of choice and settled in the Newport Bay community. We quickly became active with the Windward Lake Club and Yacht Club. I am currently active with the Windward Association of Retired Men and serve on the Windward Covenants Committee. I have been attending the Windward Board meetings as a Resident Advisor, in addition to supporting a review/update of the current Use Restrictions Document.

I completed my education at the University of South Florida graduating with a BS in Electrical Engineering following an 8-year enlistment in the Air Force as a member of the Medical Service. My engineering career began with Lockheed Martin, 28 years, working as a design engineer progressing into engineering program management and culminating as a program manager. Following my retirement from Lockheed, I accepted a program management position at the General Dynamics Robotics System division and continued there for the last 6 years of my full time engineering career. During my tenure at Lockheed I was offered, and accepted, a position on the Lockheed Martin Federal Credit Union's Board of Directors and served on the board until our transfer to Alpharetta.

I'm certain that my background/experience in engineering, program management and finance will effectively serve both the board and the community, ensuring that all constituents are fairly represented and the community goals met.

### Michael Jordan

My name is Michael Jordan, and I would appreciate your vote in the upcoming Windward HOA Board election. We bought a home in the Spinnakers community 2 years ago and plan to be residents in Windward for many years to come. We have lived in the North Fulton area since 1992. From a professional perspective, I have been an executive at McKesson Corporation for the last 30+ years and understand how to handle budgeting, contracts, legal issues, and working in a collaborative environment for the overall benefit of the greater group.

I firmly believe in the concept of Servant Leadership and the role of a leader is to serve those you lead or represent with honesty, integrity, and respect in every interaction. Decisions should be focused on the greater good of the community, while understanding the rights and perspectives of the individual home owners. While each situation may have some unique circumstances, the decisions should be made consistently and fairly for all involved. Existing personal relationships and quid pro quo should never be a factor in HOA decisions.

I believe:

- The Board's primary function is serving the community, protecting property values, and promoting a sense of community.
- In providing transparency of Board decisions that affect the broader community.
- Board tenure should be limited to a set number of terms/years.

If you have any questions, please reach out and I am happy to discuss.

### Brian Mould

I have lived in Windward for 20 years, after moving here from Northern California. My wife and I spent many months searching for the right place to live in the Atlanta area, and Windward was the unanimous choice of our entire family. The quality of life, and the quality of the local schools for our three children, were major deciding factors for the move.

I am a graduate of Keele University in the UK, and own a technology business, Better Office Systems, with its office in Alpharetta.

Over the last 15 years I have been on the Board of Directors of the North Fulton Chamber of Commerce, and have been very involved in promoting Alpharetta and North Fulton as the premier place to live and work in Georgia. Since 2014 I have been privileged to be a Resident Advisor to WCSA, and during that time have learned more about Windward than would have ever been possible without that involvement.

Windward is an extraordinary place to live, in an extraordinary area. As an ambassador for Windward it would be my intent to not only maintain, but to enhance the name of Windward.

### Tom Miller

I have lived in Windward for 19 years. On the Windward Homeowners Inc. board, I negotiated zoning agreements, coordinated the Windward Directory and Currents, and worked on social events. I served as WHI President for 9 years and as Treasurer for 4

years. On the WCSA Board since 2013, I have been active with zoning, covenants and the courtesy officer.

My goal is to advance Windward as the area's preeminent community by maintaining beautiful common areas, fairly enforcing our covenants, and supporting appropriate home upgrades, while keeping dues as low as possible.

I am a Senior Finance Manager at Cox where I work to improve revenue and reduce costs through customer value and cost efficiencies. Previously I was in Finance at Cibavision and Eastman Kodak, and I was an engineer at Bechtel. I hold a Bachelors in Mechanical Engineering from Rensselaer and a Masters from Thunderbird School. It would be an honor to continue to serve as your voice on the WCSA Board, and I ask you to cast your vote for me, Tom Miller.
